therapies for living

sergeant

peripheral support catheter

To lead complex lesions procedures

www.ivascular.global

sergeant

Designed to ease the complex and distal lesions procedures

Support to cross all lesions

Developed to ensure an outstanding guidewire support:

- Braided catheter with exceptional pushability and torque capacity
- Tapered shaft design to increase support

Able to go through tortuous anatomy

HYDRAX +, proprietary hydrophilic coating that increases the catheter trackability

Perfect visibility

The 4 radiopaque markers assess accurately:

- Catheter position
- Lesion length

sergeant features

- > **Over the wire catheter (OTW)**
- > Tip: **Straight or 30° Angled**

- > **4 tungsten radiopaque** markers
- > **4F** introducer compatible

Product with CE mark, certified by Notified Body 0123
