Your Peripheral Vision®

A Suite of Silicone Catheters

NOW OFFERING A SUITE OF SILICONE VASCULAR CATHETERS

LeMaitre Vascular has added a line of silicone clot management products to its catheter portfolio. This expanded offering provides a wide range of high-quality catheters when latex sensitivity is a concern.

Effective Clot Removal

Silicone symmetrical balloons maintain a cylindrical shape for improved clot removal.

Precise Atraumatic Navigation

Flexible tip and traction balloon offer good tactile feedback.

SYNTEL® VASCULAR CATHETERS

Shaft design ensures stability in center of vessel to minimize potential damage to the vessel intima. Non-fragmenting balloon enhances clinical outcomes.

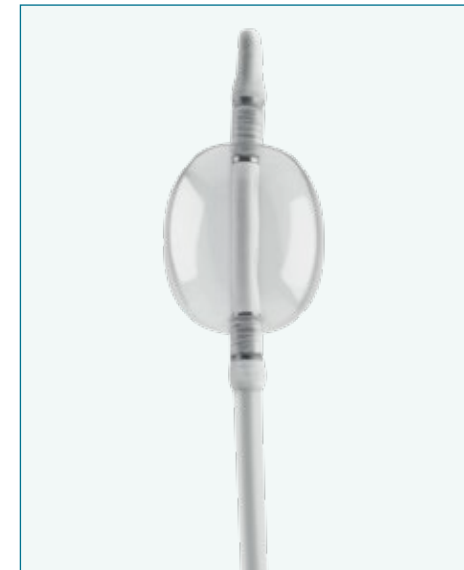

- Embolectomy & Thrombectomy options
- Embolectomy catheters available in regular and spring tip

Syntel Embolectomy Catheter

Syntel Thrombectomy Catheter

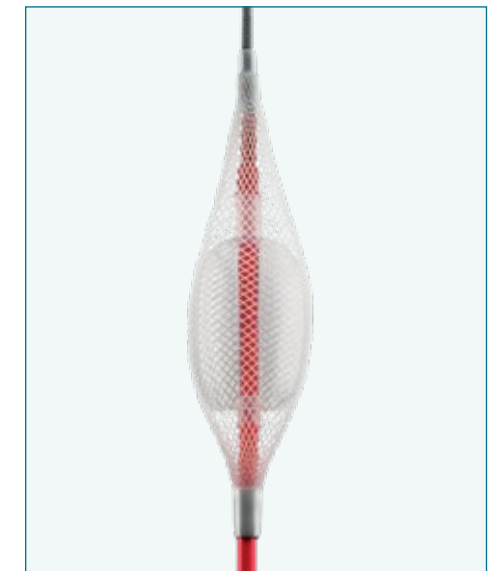

Python Over-the-Wire Embolectomy Catheter

PYTHON® OVER-THE-WIRE EMBOLECTOMY CATHETER

The 5F catheter body fits through a standard 6F introducer sheath and accommodates a 0.035" guidewire. Non-fragmenting balloon enhances clinical outcomes.

LATIS® GRAFT CLEANING CATHETER

Unique latis mesh allows for efficient cleaning and effective removal of clots from synthetic grafts. The traction balloon engages tough adherent thrombi and maintains tactile feedback for effective treatment.

Latis Graft Cleaning Catheter
